

## Autumn Woods Update on the Lakes Improvement Project to Start

Please note that the initial repairs to our lake system will begin on November 30, 2015. The work will begin at the two northern most lakes by the condos (Lake 15 is the one near the Orange Blossom Dr entry gate between Autumn Woods Blvd and Blue Juniper Ct. Lake 16 is west of Lake 15—near Wild Forest Ct and Blue Juniper Ct). The first step will involve replacing the black flex pipes with more rigid pipes, so as to minimize the point discharge erosion. The pipes will be replaced first and then fill will be brought in to reestablish the lake bank slope. Finally, littoral plants will be installed.

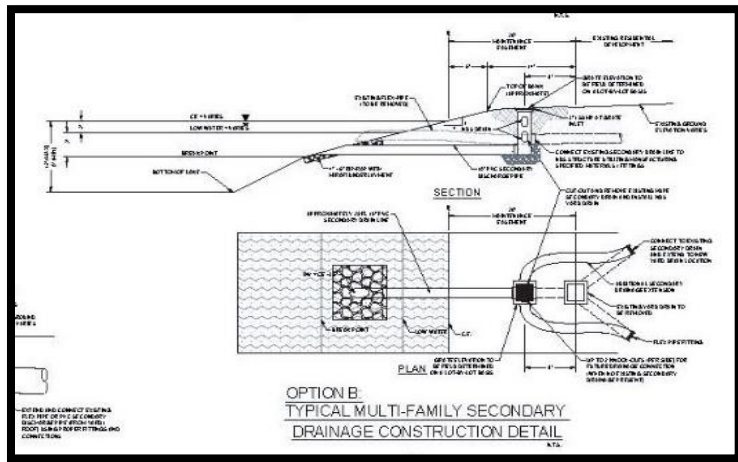

Figure 1: Picture to the left depicts a washout created by a flex pipe downspout.

Figure 2: Picture to the right depicts the more rigid pipe with a rip rap end treatment to eliminate the washout condition.

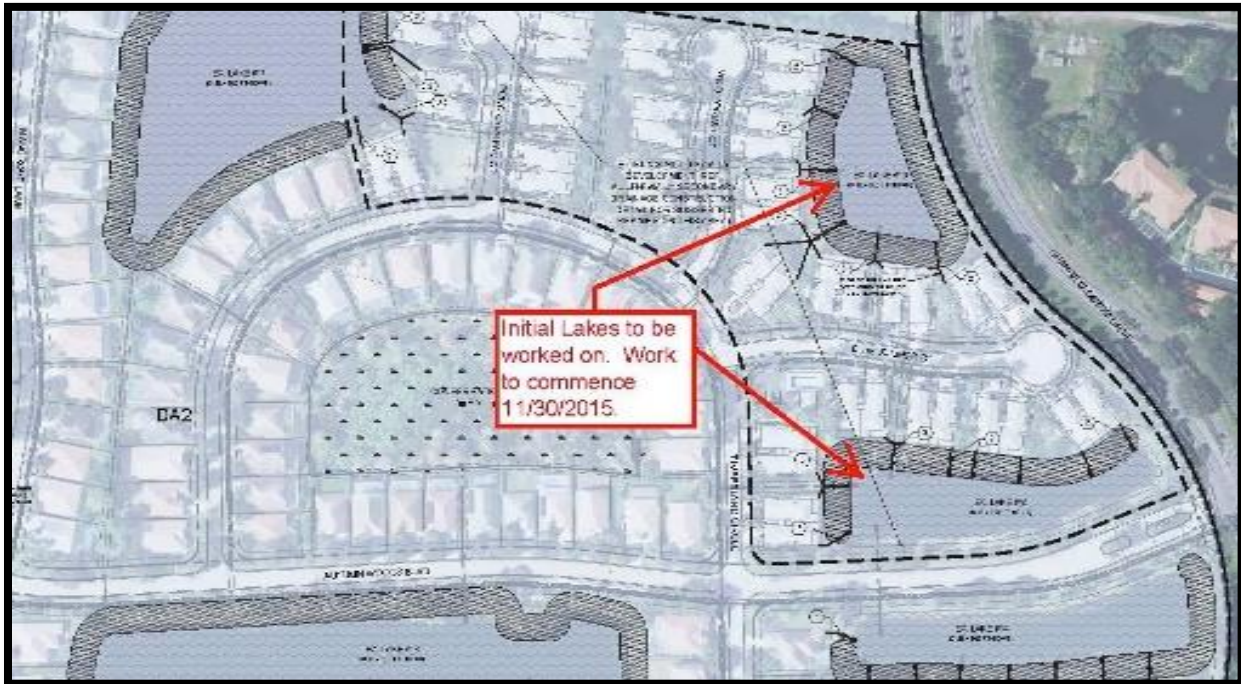

Figure 3: Lakes 15 and 16 will be the first two lakes to be worked on.
